THEY SAY.

You should have been present.

The recorder was in his glory.

The affair was great.

The Indiana editor must be absent minded.

He would like to know just what the deal was, no doubt.

There was no deal in it.

The Freeman man is, no doubt, used to dealing.

Why should honest men enter into deals?

The editor of the American, Mr. Lawson, was glad enough to come on terms

Cooper will no doubt see it and then he will not see it.

What has become of that animal of the Kansas City Messenger?

The High School is in need of a principal.

John R. Lynch will be the orator of the day at the third anniversary celebration of the Whittier Historical Association.

It is a dangerous thing to lie to your friends.

Be honest to your friends, but watch your enemies.

Let us have suffrage.

What has the Union League done and what can it do?

Who is benefitted, that is the question.

The next democratic Comissioner will be Justice Samuel C. Mills.

A negro will be urged for one of the places on the police court bench.

Be careful of what you say and how you say it.

Jesse Lawson will be a wiser man than what he is now, no doubt.

Prof. Langston was determined that his paper should not be discussed on last Sabbath afternoon.

He was like the little boy who struck and ran away.

The temperance choir is becoming very popular at the Fifteenth Street Presbyterian Church.

Some men change their minds when they see they can't get what they want

Never tell all you know; it is dangerous.

Let everything be new to you.

Never know a thing although you know it.

If you play ignorant of what you know, you can very often hear more.

Some people are never satisfied.

Some white judges think that negroes have no sense.

There are some very impudent officials in the lower branch of the police court.

There is one particularly smart chap who knows more than the judge.

He knows enough to break his neck some of these days.

Ex-Senator Bruce will return from Mississippi in a few days.

Cotton is occupying his attention.

Sergeant Daley shou'd be removed

He is not the man to be on the police force.

It is to be regretted that King killed himself.

The white waiter suits should be removed from the physicians of the Freedman's Hospital.

Be all you seem to be and nothing more.

Bob Brown has a fine colt.

There are cappers around the police court.

Never misjudge your fellowman.

Never speak what you can't prove.

Call and learn the prices of printing.

Colored men are coming to the front.

"The Negro in Brazil" was the subject of Smith's paper before the Bethel Literary on Tuesday night.

Something will fall in a few days.

In union there is strength.

Stick to the text as the law directs.

Pay your debts when you can.

You can't do any more than you can.

Call at this office for first class work.

Why don't you pay what you owe this paper?

Everybody pays but you.

Shall the collector call?

Let us have peace.

WANTS TO BE KICKED INTO NOTORIETY.

SHOO FLY EDITOR OF A NEGRO PAPER

From the Solicitor.

What a gigantic piece of humbuggery is that which is being worked upon the Negroes of the country by the right honorable Frederick Douglass and Miss Ida B. Wells. It only costs the people when they lecture from $100 to $200 for each of them to make a single speech. When they wind up, the Douglass-Wells combine will have the money and lynching will still be practiced."

The reader can readily see that the object sought by this paper is attained, so far as the exposure of the "gigantic humbuggery" spoken of in the above clipping is concerned. As to the point of "notoriety," it is not hard to perceive that the "enemy sheet" has assisted us in that line at they could. Hence the lesson of the "cat and helpless mouse." But what else can you expect? ignorance always asserts itself whenever it predominates over intelligence.

The truth is this: Many of our Negro editors are absolutely ignorant of the primary elements of journalism. Many of think that all there is to journalism is to be able to write an article grammatically. They are ignorant of the fact that it requires the same line of study to become an accomplished journalist that it does to become a statesman. A comparison might be made to the man who is able to get up at all times and make a flowery speech, with the experienced student of politics. The flowery speaker is not in it when the finish comes, while to the wonderment of the populace, the keen edged "politician" wins with ease.

Now, my foolish brother of the fraternity, note the philosophy of this article and stop playing the helpless mouse. The "Solicitor" can live without you and the principles we are advocating will ultimately be adopted because they are right.

The Splendid Record Made in Behalf of Humanity.

Washington, Dec. 3. — Supt. Kimball, of the life saving service, detailing the splendid record made by his bureau in the cause of humanity, says that 380 vessels in distress were aided by the life saving service during the year. There were on board these vessels 4,054 persons, of whom 3,993 were saved and only 61 lost. The number of shipwrecked persons who received succor at the station was 658. The estimated value of the vessels and cargoes involved in the disasters was nearly $10,000,000. Of this amount $7,688,000 was saved. In addition to the number of persons saved from vessels there were 83 others rescued who had fallen from wharves, piers, etc., and who would have perished without the aid of the life saving crews. The number of disasters by reason of storms was greater than in any previous year since the introduction of the present system. The cost of the maintenance of the service during the year was only a little over $1,225,000.

Twenty-Five Shots Were Fired During the Capture.

Brandon, Vt., Dec. 3. — The Post-Office robbers who operated at Ticonderoga, N. Y., Wednesday night, were captured near here Thursday after a hot chase. There are four of them. The train dispatcher here received a dispatch that the robbers probably came this way. Sheriff Fletcher was notified and started in pursuit, but the robbers doubled on their tracks, came back through Brandon and hired a liveryman to take them to Rochester. The officers discovered the trick, and telephoned to Rochester for a posse to meet the suspects. Sheriff Tinkham and four officers started for the latter place and met their men two miles this side, where a desperate battle took place, resulting in the wounding of two officers and two robbers and the capture of the gang. Twenty-five shots were exchanged. The robbers were searched, and $45 and a quantity of stamps were found on three, but nothing was found on an old man, who refused to say a word.

SUFFRAGE.

The people of this city are tired of the present form of government. It is tyrannical, outrageous and oppressive. The people are dissatisfied with the present system of government as it is one in which a cert in class of individuals are benefitted. The aristocracy is opposed to suffrage; the aristocracy will forever oppose the right of suffrage, and especially if this class cannot control. The people have the right of petition and nothing more, so far as their petition is concerned it is disregarded.

Why not elect the officers of the government? Why not elect the judges of the police court, the recorder of deeds, and all other local offices under the District government? The people are tired of wearing the yoke; they want to exercise the right of citizenship and that can only be done by giving the people the right to vote.

THE PUBLIC PRINTER.

The BEE cannot believe that Hon. Thomas E. Benedict, the Public Printer, is opposed to Negro printers. Mr. Benedict's previous and subsequent record contradicts the statement of the BEE's correspondent in this week's issue. If every colored printer but one has been dismissed the BEE is of the opinion that Mr. Benedict is ignorant of it. As an evidence of Mr. Benedict's friendship for the Negro in his department the BEE takes this occasion to call the attention of "Colored Democrat" to the appointment of Mr. Clark, a colored gentleman, whom Mr. Benedict appointed foreman of the map room over some white employees who threatened to leave if the Negro was not removed. Mr. Benedict politely informed them if they were not satisfied with his colored foreman they could leave. At the expiration of Mr. Benedict's term of office or when the Republicans came into power the colored foreman was removed and a white Republican put in his place.

On the return of the Democratic party to power Mr. Benedict was reappointed and his first act almost was to reappoint Clark to his old position from which he had been removed on account of his color.

If any color line was instituted it looks like it was under the other administration.

The BEE would suggest to the "Colored Democrat" to call Mr. Benedict's attention to the alleged discharge of the colored printers, as there must be some mistake.

THE RIGHTS OF THE PEOPLE.

It seems that the people should have some rights that a tyrannical form of government should respect. Where there are oppressive laws the people stand in their own light by not having such laws abolished. The people of the District of Columbia must obey the mandates of a government in which they have no authority to elect the rulers. There is no government in the world, not even the Czar, that has such little respect for the will of the people as the present form of government.

Let this form of government be abolished.

Hon. John M. Langston has decided to lay before the people of the District of Columbia the propriety of organizing an association for the purpose of furnishing counsel for the poor class of colored people who are tried in the District courts and are too poor to employ counsel. If some church is not thrown open to him he will have a hall himself. Such an association is worthy of consideration and ought to be endorsed by the people and elect Mr. Langston president. The reason that so many colored people are sent to the workhouse and jail is because they have no counsel.

It is rumored that several changes in the public schools will be made. What the causes are no one knows but the trustees

THE POLICE DEPARTMENT.

The District Commissioners, in their review of the findings of the police trial board, certainly made fish of one and bone of the others. If Sergeant Daley was found guilty by the trial board that found the other men guilty of various offenses, why should they be dismissed, others fined and Daley reprimanded? It shows that Commissioner Truesdale is more or less controlled by a set of temperance cranks that will do more harm to a community than drunkards.

What has Daley done for South Washington that he should be retained on the force? He was found guilty of attempting to blacken the character and reputation of Lieut. Gessford, which the BEE considers one of the greatest offenses that one can be guilty of, and the Commissioners knowing this to be true simply gives the prejudiced sergeant a slight reprimand. Daley should have been dismissed; his ambition is to be lieutenant, and there is no telling what he may do or what officer above him will become a victim of his prejudice and vindictiveness.

Daley should be removed; he should have shared the same fate his partner Klinger did. He is no better than he is. The BEE knew that it would only be a question of time before Klinger met his fate; the BEE knew that a just retribution would be meted out to him. Col. Truesdell was appointed Commissioner for the whole people and not for a few. He was put there to protect the interest of the people and not to be controlled by a class of temperance cranks against reason and justice. If you have no faith in your chief of police he should be removed. The opinion of the BEE is if Major Moore was given the entire control of the police department there would be better discipline on the force, but as long as the Commissioners interfere with the findings of the trial board, the police department will be equal to that of New York. The people are tired of this kind of business; the people want to see the present form of government changed.

Why is it that Daley and his men fail to raid the high-toned white bawdy houses? They dare not; they know that there is a backing behind them that would revolutionize the force.

Yes, they can go in Louse and Willow Tree alleys and raid the denizens of Bloodfield, and then Daley and his men are applauded by these temperance cranks.

Why is it that Sergeant Daley and his temperance supporters fail to hold prayer and praise meetings in the vicinity where all the high-toned demi monds live?

The police department and every other department under the government should be investigated. Let this triumvirate government be abolished.

The BEE congratulates its most noble and worthy contemporary the Philadelphia Tribune on its improvement. The genial Chris. knows a thing or two.

The editor of the Indianapolis Freeman is off his base. He should bate with worms if he wants to catch fish. Brother Knox you are not in it.

Both branches of Congress met on Monday and the President's message was read.

The Democrats are somewhat demoralized and dissatisfied with the Administration. On the other hand the President is not at all disturbed in mind.

A colored man some few days ago was beat up by a police officer and was fined $25. In the police court on Monday a colored man struck a white officer and was given six months in jail.

It is determined on the part of the people to have the elective franchise restored. The condition of the times warrants a change in the local government.

SERGEANT DALEY.

The District Commissioners certainly should remove John C. Daley from the force. He has done nothing but created disturbances and contention ever since he has been on the force. All of this talk of what he has done for South Washington is all on paper. South Washington is to-day as it was long before Daley was transferred there. He wants to be lieutenant, chief of police, trial board and District Commissioner.

For the good of the force Daley, Klinger and Bruce should be dismissed. Dozens of families are suffering to-day on account of these men. What good are they or what good have they been to the police department?

The Commissioners should disregard the protest of these temperance cranks and remove Daley and his gang from the force. There is more rascality done by these so-called temperance advocates than by any other class of people. Of course there are exceptions to the rule, but those exceptions are so few that they can be counted on your fingers. Without judge or jury, a few months ago, quite a number of officers were removed from the force on the representation of one of the temperance cranks who claims to be on the force. The Commissioners ought to deal with these pimps in a similar manner. Let Daley be removed.

OUR CHARITY ENTERTAINMENT.

Capt. Wm. H. Thomas, Lieut. Wm. M. Simpson and Sir Knights G. R. Watkins, G. W. Davis, W. S. Wallace, G. W. Boggans, Peter A. Smith, and Wm. H. Stevens of the H. H. Garnett Division No. 1, U. R. of K. of P. have become active members of the auxillary committee of the Golden Circle and will contribute largely to the success of the Grand Charity Reception at Convention Hall, January 2, next.

It is expected that the H. H. Garnett Division No. 1, Capt. Thomas, and Chas. Sumner Division No. 2, Capt. Thomas J. Henderson will attend the reception in full uniform.

CLARA TO LOUSISE.

MY DEAR LOUISE: You have no idea how glad and pleased I was to have received a letter from you. It has been sometime since I heard from you. The social circle is now up in arms over the contemplated changes in the public schools. Who the persons are I am unable to state but, I am told that the investigation has developed the fact that some officials may be implicated by the ex pose.

THE SCHOOLS

of this city have been a source of discontent for some time. There should be a rule made in the school board that after a person graduates from any department, to compel the graduate to furnish a certificate of character.

The teachers are not the only persons to be investigated as to wrong doing.

There are some very active and meddlesome officers in the schools who claim to know. If that is going on and very often they overstep or go beyond their authority.

I am in favor of abolishing the offices of supervising principals. The white superintendent claims that they are necessary. I, of course, differ with him. If the white supervising principals are as bad as the colored ones I am in favor of doing away with them at once.

I attended the temperance meeting on last Sabbath and heard an excellent talk from Dr. Purvis.

I agree with you as to the uniform worn by the physicians at the Freedmen's Hospital, I do think they are horrible. If I had to be operated upon I would conclude immediately that I was to be butchered the moment I saw them. Well, I will give the new chief credit for some of the changes made in the personnel of the hospital. The nurses are an improvement on the old time and ignorant nurses under the last administration. I find the present nurses highly educated, kind and polite to the patients and to the visitors. I am in favor of giving the nurses more pay; they don't receive half enough money for the work performed by them. Let us urge Congress at this session to give the hospital more money to enable the nurses to get more money.

Our dear and kind friend, Major Fleetwood, and his wife celebrated the 25th anniversary of their marriage on Thanksgiving night. The attendance was large and the presents numerous.

Well, yes, I have attended the Church of the Household and admired the improvements that are being made. I shall attend the opening after the upstairs is completed. The members feel very much elated over the fine condition of that edifice I know it will present a beautiful appearance when it is finished.

I shall look for your next with great anxiety.

Your truly,

CLARA.

PUBLIC PRINTER BENEDICT.

COLORED COMPOSITORS GIVEN NO QUARTERS IN HIS OFFICE.

Washington, D. C., Dec 5, 1894.

Editor of the BEE:

SIR: I have noticed in several issues of your widely-circulated journal the statement that Public Printer Benedict is not prejudiced or opposed to colored compositors. I have investigated the matter and think that you have been misinformed. The facts are as follows: When Mr. Benedict took control of the Government Printing Office there were seventeen colored compositors (one of them a proof-reader) working there shortly after he, Mr. Benedict, was ensconced in his office he dismissed all save one, and Heaven only knows what moment that one may be decapitated, but I trust and hope that he will be spared and not meet the fate of the others.

Mr. Benedict may not be opposed to colored printers outside of the printing shop of which he has charge of, but the incontrovertible fact stares us in the face that he doesn't have them in the Government Printing Office. Looking at the matter calmly and impartially, I think that you will see that "there is something rotten in Denmark," and that the facts are contrary to your heretofore published statements that Mr. Benedict is friendly to and doesn't object to employing colored compositors. His having dismissed those he found there and not appointing any, is prima facie evidence that he is prejudiced to colored printers.

Such things make me partially disloyal to the democratic party.

A COLORED DEMOCRAT.

OUR AMERICAN CONSUL.

Hon. H. C. Smith, the American consul to Santos, Brazil, read a most excellent paper before the Bethel Literary Society on last Tuesday night, entitled "Brazil and the Negro." Consul Smith gave an excellent description of the Brazilian people and the Negro in that country. At the conclusion of his paper one or two attempted to take exceptions to what he said by referring him to Appleton's Encyclopedia. Mr. Smith, in a cool and deliberate manner, said that Mr. Appleton wrote from what was told him, and he wrote and spoke from what he saw.

One wrote from a white man's standpoint while the other wrote and spoke from an impartial standpoint and from the standpoint of a Negro concerning his people.

The paper was highly commended by Hon. Fred Douglass, Geo. C. Smith, L. W. Pulies, Terrell, Dr. J. T. Jenifer and others.

LANGSTON AT SHILOH.

Hon. John M. Langston, the silver-tongue orator, read an excellent paper before Shiloh Baptist Church Lyceum on last Sabbath afternoon. There was not standing room. The subject of his paper was "Leadership," in reply to the paper read by Mr. Chase two Sabbaths ago.

Mr. Chase maintained that the race never had a leader, and those who had any claim to leadership at all were complete failures. Prof. Langston took the ground that the race had leaders, &c.

The speaker was eloquent.

THE NEGRO IN BRAZIL

Was the subject of a paper before the Bethel Lyceum on Tuesday evening by Hon. H. C. Smith, United States consul at Santos, Brazil. There was a distinguished audience present. The speaker was interesting and gave many important facts that may have been unknown to a great number present.

THE ONLY CREOLE COMPANY ON EARTH.

Minstrelsy has long ago given theatre goers a pretty good insight into darky character and a fair knowledge of the sable people of the Sunny South, but it remained for Sam T. Jack, whose famous Creole Company will be the attraction at Kernan's December 17th, to gather together the native belles and comedians and provide an entertainment in which they are afforded every opportunity to develop their talent and skill. He then obtained the exclusive control of half a hundred and more native artists, who have never appeared under any other management and who can be seen only during the engagement of this company. They are the representative artists of their race, and have proven themselves by their singing and dancing possessed of the highest vocal talent and terpsichorean skill. Their native songs and dances are novel to any one not familiar with the sunny clime and entertaining to even those who have sojourned or resided there. Old southern melodies possess a peculiar charm, while the grotesque dances of the South are sure to rouse every one who pulse is quickened by a hot pace. Kilanzi's living pictures are added as a special feature and are presented with all the latest scenic, mechanical and electrical effects. The groupings consist of a series of chaste selections from the old masters.—Toronto World.

MLLE FINNIE, during her two years' absence from this city, has made an extensive tour through the South and West, and has added much to her former store of knowledge of "the human form divine." She will be more than pleased to give to her former patrons and the citizens of Washington in general the benefit of her newly acquired art. Among the many new articles brought to Washington this season is the

"EGYPTIAN FACINE,"

A harmless preparation for the Face and Hands, containing no alkali nor acid. Its careful use will beautify and give to the skin that Venus like transparency which excels all former undertakings. The most natural beautifier removes Tan, Freckles, Sunburn, Blotches and all unnatural discolorations of the skin, and gives instead the rosy, healthy tint of childhood.

In connection with "Egyptian Facine" the medicated "Skin Salve" may be used to hasten the desired effect.

For the growth and straightening of the hair Mlle Finnie's *"African Eureka Cream"* has no equal.

All who want true complexion and beautiful hair should avail themselves of the opportunity of buying one or more of her preparations.

WHAT SHOULD BE WORN.

For a stylish garment on a well built woman, the frock back and double-breasted front of the new sealskin and Persian lamb coats is the striking fur wrap of the season; but capes remain the most practical purchase one can make.

The stylish sweeps for capes is from 85 to 180 inches, the length from 25 to 32 inches; the longer the fur, the smaller the sweep or width.

The lamb and seal seal skin coats are to the knees, three-quarter length.

Coat skirts are amply full and opened up the back.

Chinchilla collars are seen on sealskin, but will not grow a popular fashion.

Half long and full length evening wraps are lined with ermine more frequently than with anything else.

Muffs are not worn larger in spite of contrary expectations.

For dresses the goods this year seem to be in darker shades than ever and even the goods that have pattern have it of such an indefinite and sombre hue as to make it seem almost uniform.

Ladies' cloth, also Henriettas are seen on many of the tailor made dresses.

The perforated cloth gowns will not become as popular here as abroad. They are too expensive and conspicuous.

The popularity of rough fabrics for street wear continues Some of them are trimmed simply in black satin ribbon.

The basqued bodice or jacket is the particular feature of the new tailor made costume.

Some of the street costumes are seen buttoned all the way down from the throat to the extremity of the basque with small buttons and are made quite tight fitting.

Others are made double breasted like the fashionable coats, and have two rows of large buttons, three in each row, with lapels and collars of different forms.

The wide pointed lapel surmounted by a round collar is a favorite.

The difference between the sleeves of this season and last consists chiefly in the greater width at the top and sometimes a bagginess at the elbow. Shoulder seams, however, are longer, so that the fullness of the sleeve is pushed further downward.

The panel in the skirt narrow at the top and widening out considerably at the bottom is fast becoming popular, although it only made it appearance a very short time since.

Only the skirts of very dressy gowns are ever draped. The others have almost all a panel of some sort.

The new bodices are cut in cuirass form, that is to say quite tight fitting and finished off at the waist with a slight point in front.

The bodices somewhat full in front still hold their own and are decorated with lapels, shoulder straps or braces of velvet secured by rosettes or bows and a sash of ribbon belt is added.

A LIBERAL ORGAN OFFER.

That there has been a revolution in the manufacture of Organs and Pianos is evinced by the current offer of Cornish & Co., the well known manufacturers of Washington, N. J. For the next 60 days they offer to sell an organ for $42.50, which a short time ago would have been considered a desirable bargain at $75.00. With this they offer terms of credit that are sure to meet with the approval of every fair-minded person. Cornish & Co. are the largest makers of Pianos and Organs in the world selling direct from the factory to the home. Since the conception of this great business, nearly thirty years ago, they have been fighting the method of selling instruments through agents and dealers, their plan being to give the enormous profits usually retained by the tradesman to the buyer. Their efforts to place first class instruments within the reach of all, at manufacturer's prices and the most liberal terms, deserves the highest commendation. Every one who is contemplating the purchase of an Organ or Piano, should get the catalogue issued by this firm. It illustrates and describes all the latest and best designs of Organs and Pianos with prices and special offers that are sure to prove profitable. They generally offer to send to it free to all who write and mention the BEE.

RELENTLESS JAPAN.

She is Intent Upon the Prosecution of the War on China.

London, Dec. 3.—A dispatch to the Times from Kobe says that Japan seems intent upon the prosecution of the war with China. Preparations are making for a winter campaign.

Washington, Dec. 3.—The Japanese have not, so far as the State Department officials will admit, yet made any reply to the proposals of the Chinese Government for a termination of the war now going on. It is expected that Japan will expect China to send an embassy to Tokio and have negotiations conducted and the explicit terms of peace arrived at in the manner common in Oriental countries. Detering was refused an audience at Yokohama. He had Li Hung Chang's peace proposals.

Shanghai, Dec. 3.—Admiral Ito, commanding the Japanese fleet, escorted Admiral Freemantle and a hundred British officers over Port Arthur last Sunday. The flying Chinese soldiery have outraged, pillaged and murdered on every side, sparing in their frenzied cruelty neither women nor children. A correspondent who witnessed the battle at Port Arthur, and has now reached Hiroshima, Japan, says wounded Japanese were found at Port Arthur with their heads, hands and feet cut off and their bodies awfully mutilated. The Japanese artillery displayed magnificent marksmanship. The Chinese Generals fled after the first fort was taken. Had they surrendered many Chinese lives would have been saved. The barbarism and cruelty of the Chinese are indescribable. Many Chinese were killed during the battle, but the Japanese treat kindly those now remaining in the city.

OUR ARMY.

Lamont shows the strength of the army at present constituted as follows: Cavalry officers, 430; artillery officers, 280; infantry officers, 875; total officers of the line, 1,585; general officers and in staff departments, 551; total officers, 2,136; enlisted men of cavalry, 6,050; enlisted men of artillery, 3,975; enlisted men of infantry, 12,525; enlisted men of engineers, 500; recruits, 309; total enlisted men in companies and regiments, 23,759; enlisted men in detachment and unassigned to regiments, 1,241; total authorized under act June 18, 1874, 25,000; enlisted men, hospital corps, act March 1, 1887, 772; total all enlisted men, 25,772.

Afraid of Train Robbers.

St. Louis, Mo., Dec. 3.—An order has been issued by General Manager Doddridge, of the Missouri Pacific Railroad Company, discontinuing all night passenger trains on the Kansas and Arkansas Valley Division after December 9 running between Coffeyville, Kan., and Van Buren, Ark. Mr. Doddridge says the present condition of affairs in the territory, resulting from the recent hold-ups made by the numerous bands of outlaws in that section of the country, has compelled him to take this action to protect the passengers of his road. The day trains will run as usual.

A Famous Bank Cashier Dead.

Northampton, Mass., Dec. 3. — John Whittelsey, cashier of the Northampton Savings Bank, died suddenly from heart disease Friday afternoon. Mr. Whittelsey, who had been in the employ of the bank for thirty-five years and had been cashier for over twenty years, was made famous by his connection with the famous Northampton Savings Bank robbery January 26, 1876.

Nuptials of Uncle Sam and Queen Lil.

Washington, Dec. 3.—There is some discussion here as to the action which the Hawaiian Congress may take this winter with regard to annexation to the United States. It is believed, however, by public men in the United States who are familiar with the situation in Hawaii that the Congress of the latter country will take no formal action at this time expressive of their desire for annexation.

Bank Robbers Get $10,000.

Lamoni, Ia., Dec. 3.—The Commercial Bank here was entered and the safe blown open by robbers. An entrance was forced through the rear door. Holes were drilled into the safe above the combination, and a charge of powder threw the door across the room. The robbers secured $10,000 in money and considerable jewelry.

An International Stamp.

Washington, Dec. 3. — Postmaster-General Bissell has received from the French Government a request to enter into an agreement with that country to send letters from there with pre-paid reply. They will, of course, agree to accept a similar plan on the part of the United States. Mr. Bissell is in favor of an international stamp.

Call for Populist Convention.

St. Louis, Dec. 3.—A special call for a national meeting of the Populist party has been issued, the convention to be held in St. Louis this week. The call is the result of the action taken by the Bi-metallic League in recommending the establishment of a new silver party.

The Income Tax.

Washington, Dec. 3.—Secretary Carlisle has the completed regulations, as prepared by Supt. Pugh, for putting the income tax into effect. Two forms are provided, one for the return of the income of individuals and one for the return of corporations.

Would Make the Triple Alliance Useless.

Rome, Dec. 3.—The Tribune says that an Anglo-Russian understanding would render the Triple Alliance useless, which need not be regretted by Italy. It would rest then with France to establish a new balance of power.

The Czarewitch Not Dead.

London, Dec. 3. — A dispatch from St. Petersburg denies upon official authority the report of the death of the Czarewitch, the Grand Duke George, and also says that he is not even in a critical condition.

WILBOR'S COMPOUND OF PURE COD LIVER OIL AND PHOSPHATES OF LIME, SODA, IRON.

The truly wonderful effect produced by Dr. Alexander B. Wilbor's Compound of Pure Cod-Liver Oil and Phosphates renders it beyond doubt the most perfect preparation of its kind known to-day.

Consumption, coughs, colds, asthma, debility, wasting diseases and all scrofulous humors disappear under its influence. It is almost as palatable as cream. It can be taken with pleasure by delicate persons and children, who, after using it, become very fond of it. It assimilates with the food, increases the flesh and appetite, builds up the nervous system, restores energy to mind and body, creates new, rich and pure blood, in fact, rejuvenates the whole system; flesh, blood, nerve, brain. This preparation is far superior to all other preparations of cod-liver oil; it has many imitators, but no equals. The results following its use are its best recommendations. Be sure, as you value your health, and get the genuine. Manufactured only by DR. ALEXANDER B. WILBOR, Chemist, Boston, Mass.

THE ARMENIAN MASSACRE.

Confirmation of the Terrible News Received From Many Sources.

London, Nov. 19.—The Daily News correspondent in Constantinople says in a dispatch concerning the massacre of Armenians in the Saesoun district: "Sir Philip Currie sent Consul Hallward's report of the incidents at Saasoun to the Porte in order to indicate the serious nature of the events. The Porte, instead of accepting this in a friendly manner, brusquely denies the facts, asserting that Mr. Hallward's report is untrue. It was insinuated or stated outright, that he had encouraged the Armenians to revolt. This was, of course, ludicrous and absurd. Sir Philip Currie at once informed the Foreign Minister that he should take steps to verify his assertions. His energy paralyzed the Porte, who on Saturday withdrew the allegation against Hallward. The Sultan ordered a commission of three military men and a civilian to make an immediate inquiry. From many sources confirmation of former reports of the massacre have been received. The utmost endeavors have been made to prevent the facts from becoming known. A number of Armenians who fled toward Trebizond have been ordered to return."

A DEADLY KNOCK-OUT.

Bob Fitzsimmons Gives Con Riordan the Blow.

Syracuse, N. Y., Nov. 19. — In the usual sparring exhibition which closed the programme of the vaudeville show Friday night, Con Riordan, the sparring partner of "Bob" Fitzsimmons, was knocked out by a right hander from Fitzsimmons which caught Riordan on the angle of the jaw. The accident occurred at 10:30 o'clock, and two physicians worked over Riordan with applications of electricity for two hours without being able to restore him to consciousness. Riordan breathed as if in pain, and the only evidence of life was a twitching of the muscles when the battery was applied. Fitz and his manager, Capt. Glori, were greatly alarmed when the true condition of Riordan was made known to them. The blow was a light one, but Riordan's condition was against him. He died Saturday morning from the effects of the blow. He did not recover consciousness after the knockout. Riordan had been drinking and the blow caused hemorrhage of the brain. Fitzsimmons is badly scared. Immediately after the Riordan incident Joseph Dunfee, a local sparrer, who killed Donovan in a fight at Maple Bay about a year and a half ago, put on the gloves for a two-round set-to with Fitzsimmons. In the second round Dunfee landed a right hand blow on Fitzsimmons's jaw, resulting in a clean knockdown, the first Fitzsimmons declares he was ever given. Shortly after midnight Fitzsimmons was placed under arrest and locked up.

Fitzsimmons says: "I did not hit Riordan hard; I only tapped him like that," striking an officer lightly on the cheek. "When he fell to his knees he said, 'Call time.' I did not think I had hurt him, and supposed he only wanted to escape punishment. I was disgusted at first, and it was quite a long time before I realized how bad he was hurt." When Fitzsimmons heard of Riordan's death he burst into tears.
